Resolution accepting the established fair market value in the amount of \$80,500 for the total acquisition of property located at 65 20th Avenue SW, Cedar Rapids, Iowa, owned by Maria L. Ortega in connection with the Cedar Rapids Flood Control System project.
 CIP/DID #3313200-00

EnvisionCR Element/Goal: ProtectCR Goal 1: Protect Cedar Rapids from flooding and other hazards.

Background: This property is being acquired to accommodate the current phase of the flood control system project. Compensation amount offered in the amount of \$80,500 for the total acquisition of property located at 65 20th Avenue SW, is based on an appraisal of the subject property, provided by a qualified Iowa-certified appraiser hired by the City.

The acceptance of establishing fair market value is the first of two steps in passing a resolution to refer to the Linn County Compensation Commission in accordance with the eminent domain proceedings to allow the City to obtain the property. This action is an expediency to maintain the construction schedule to protect the City's project schedule. If the owner is willing, the City will remain available and offer non-binding mediation to negotiate a mutually agreeable settlement to conclude this transaction. If an agreement is executed and approved by City Council prior to convening the Linn County Compensation Commission, the eminent domain proceedings will terminate.

Action/Recommendation: The Public Works Department recommends the City Council adopt the resolution accepting the established fair market value of \$80,500 for the total acquisition of property located at 65 20th Avenue SW, Cedar Rapids, Iowa, required for the subject project.

Resolution authorizing reimbursement of \$229,717.60 to Wex, Inc. for a regional sanitary sewer lift station located within the Wexford Heights First Addition to the City of Cedar Rapids, Iowa.
 CIP/DID #PRPT-008261-2014

<p>EnvisionCR Element/Goal: GrowCR Goal 2: Manage Growth.</p>
--

Background: A final plat for Wexford Heights First Addition was reviewed and approved by the Cedar Rapids City Council on August 25, 2015. A portion of the subdivision cannot be served by the City's existing sanitary sewer system. A publicly owned sanitary sewer lift station has been proposed by the applicant, Wex, Inc. City staff reviewed the lift station proposal and requested it be designed to meet higher level design standards and sized to provide sanitary sewer service beyond Wexford Heights First Addition.

The completed lift station will function as a regional lift station with the ability to provide sanitary sewer service up to 258 acres beyond Wexford Heights First Addition. This regional lift station was constructed to City approved standards to ensure reliable operation and low maintenance cost.

The total construction cost of this regional lift station was \$522,085.45. The Development Services Department had previously recommended City participation in the amount of 44 percent of the total cost, to a maximum of \$227,000. Due to off-site electrical supply costs being higher than expected, the recommended participation amount is \$229,717.60. This amount reflects 44 percent of the final construction cost.

Intent to assess – Solid Waste & Recycling – clean-up costs – five properties.

CIP/DID #SWM-003-16

EnvisionCR Element/Goal: ProtectCR Goal 3: Maintain and provide quality services to the community.

Background: The Solid Waste and Recycling Division is responsible for abating garbage nuisances on public and private property. Under normal circumstances property owners receive a "Notice of Abatement" letter which allows them seven (7) days to correct the problem identified in the letter and its attachments. If a property owner fails to abate the nuisance, the Solid Waste and Recycling Division abates the nuisance and issues an invoices for services rendered.

Property owners have 30 days to pay their invoice. Failure to pay the invoice results in an "Intent to Assess" action against the property being prepared by the Solid Waste and Recycling Division and presented to City Council in the form of a Resolution.

Following the approval of the Intent to Assess Resolution, the property owner receives another mailing, which includes all the original documentation and a copy of the Intent to Assess Resolution. The property owner then has an additional 30 day period to pay their invoice. Failure to pay the outstanding invoice following the second 30 day period results in a "Levy Assessment" action against the property being prepared by the Solid Waste and Recycling Division and presented to City Council in the form of a Resolution.

Following approval of the "Special Assessment" Resolution, the nuisance abatement information is turned over to the Linn County Treasurer and the outstanding payment is levied against the property owner's taxes for collection.

Description of Agenda Item: Purchases, contracts and agreements

Fleet Services purchase of a used 2007 Freightliner M2106 dump truck from Value Truck Sales, LTD for use by Parks Department – Forestry Division in the amount of \$59,550.

CIP/DID #FLT006

EnvisionCR Element/Goal: StrengthenCR Goal 2: Improve the quality and identity of neighborhoods and key corridors.

Background: The Parks Department – Forestry Division (Forestry) is requesting a tandem axle dump truck to provide tree debris pick-up in the City. The old dump truck for this division, a 2001 International, has major mechanical issues and the bed of the truck is rusted and needs reinforcement. It is no longer safe to operate or cost-effective to continue to use.

Fleet Services has located a used truck that meets Forestry's usage requirements at Value Truck Sales, LTD in Brook Park, Ohio. Because the truck, a 2007 Freightliner M2106 dump truck, is on this vendor's lot and available to other potential buyers, Fleet Services is requesting urgent consideration and approval from the City Council and City Manager in order to secure this purchase. If this purchase is approved, transportation will be provided by Value Truck Sales, LTD and delivery can be made to the City of Cedar Rapids. This is a FY16 budgeted purchase.

Action/Recommendation: Fleet Services recommends approval to purchase the used 2007 Freightliner M2106 dump truck from Value Truck Sales, LTD for use by Parks Department – Forestry Division in the amount of \$59,550.

Alternative Recommendation: Should the City decide not to purchase this truck, Forestry would need to borrow or rent a truck; if a truck should not be available, it could adversely affect the Forestry Division's operations and the quality of the City's neighborhoods and key corridors.

Amendment No. 1 to the Professional Services Agreement with HDR, Inc. for an amount not to exceed \$48,729 for additional engineering services on the WPCF Nutrient Removal and Solids Facilities Plan (original contract amount was \$660,083; total contract amount with this amendment is \$708,812).

CIP/DID #6150011-01

EnvisionCR Element/Goal: GreenCR Goal 1: Be stewards for the environment, promoting economic and social growth while restoring the relationship between the city and the natural environment.

Background: On November 17, 2015, the Cedar Rapids City Council approved a Professional Services Agreement with HDR, Inc. for engineering services to assist in development of the WPCF Nutrient Removal and Solids Facilities Plan. This Plan is intended to help the City address several upcoming requirements, including the Iowa Nutrient Reduction Strategy. The plan will update portions of the 2006 WPCF Master Plan and the 2011 Solids Facility Plan related to nutrient removal and solids handling and treatment to better reflect the changes that have taken place since these reports were last issued.

While developing this Plan, several changes to HDR's original scope of work were proposed. These include adding the following engineering tasks:

1. City staff have noted that the interior wall of the Main Lift Station appears to have become deformed and has threatened to limit the use of the existing bridge crane. HDR has been asked to include as part of their current study, a structural assessment of the Main Lift Station related to issues of potential wall deformation.
2. The Utilities Engineering staff has begun design on improvements to the existing Parshall flume upstream of the Primary "A" Clarifiers at the WPCF. These improvements include addition of a new approach channel upstream of the flume, which will improve the accuracy of the influent flow measurements. HDR, Inc. has been asked to provide structural engineering design services related to the modifications to the existing Parshall flume.
3. HDR, Inc. has decided to subcontract with EcoEngineers, Inc. out of Des Moines, IA to assist them with completion of a portion of the Nutrient Removal and Solids Facility Plan. This change does not result in changes to the budget or schedule of the PSA, but amendment language was developed in order to allow EcoEngineers, Inc. to bill to the project as a subcontractor.

Action/Recommendation: The Utilities Department – WPC division recommends approval of Amendment No. 1 to the Professional Services Agreement with HDR, Inc. for the WPCF Nutrient Removal and Solids Facilities Plan and that the City Manager and City Clerk be authorized to execute said Agreement.

Description of Agenda Item: Purchases, contracts and agreements
 Change Order No. 5 in the amount of \$67,223.43 with Tricon General Construction for the J Avenue Water Plant Process Improvements – Phase 1 project (original contract amount was \$7,276,000; total contract amount with this amendment is \$7,555,384.20).

CIP/DID #6250026-02

EnvisionCR Element/Goal: ProtectCR Goal 3: Maintain and provide quality services to the community.

Background: The J Avenue Water Treatment plant was originally constructed in 1929. Additions were made to the plant in 1949, 1969, and 2009. Sound maintenance practices have kept the plant in good operating condition throughout its service life. However, the plant is starting to experience age related issues that are not readily correctable through preventative maintenance.

A study of the J Avenue Water Treatment Plant was completed by Strand Associates, Inc. in October 2011. The report detailed alternatives that would be beneficial for the longevity of the J Avenue water treatment plant. These alternatives were reviewed and staged in a specific manner and over many years. This staging was done to both improve operational factors during the construction work and to minimize the effect of the cost on ratepayers. This Project is related to only the first phase (Phase 1) of a much larger improvements program. All of the work required is currently staged in five separate phases and spread out over ten years.

This proposed Change Order includes 11 items. The items are for changes to the scope of work as defined in the Contract Documents.

Each contractor proposal (COR) was reviewed by the Owner's and Engineer's designated representatives to ensure that the scope of the proposal is appropriate, and the pricing is reasonable.

Action / Recommendation: The Utilities Department – Water Division staff recommends approval of Change Order No. 5 in the amount of \$67,223.43 with Tricon General Construction for the J Avenue Water Plant Process Improvements – Phase 1 project and that the City Manager and City Clerk be authorized to execute said Change Order.

 CIP/DID #OB811372

EnvisionCR Element/Goal: StrengthenCR Goal 2: Improve the quality and identity of neighborhoods and key corridors.

Background: On January 27, 2015, City Council authorized execution of a Development Agreement with Little House, LLC, for disposition and redevelopment of a vacant City-owned parcel located at 1305 3rd Street SE. Originally, the Developer proposed construction of a new two-story structure on the structure with commercial uses on the first floor and residential on the second floor. However, in the interim, the developer began exploring the possibility of relocating and renovating the historic structure located at 1010 3rd Street SE (locally known as the former White Elephant Building), which would otherwise be demolished.

On April 15, the City received a formal request from the Developer to amend the Development Agreement to allow for the change in activity and a new timeline for performance based on this change. Updated financial information has been provided to demonstrate financial commitments. If the amendment is approved, the Developer proposes to begin the project in May 2016 and complete the renovation by the end of 2016.

The proposed amendment allows for preservation of the historic structure at its new location, which is consistent with the goals adopted in the City's Historic Preservation Plan.

Action/Recommendation: City staff recommends approval of the resolution.

Resolution adopting an Annual Action Plan and specific budget allocations for the Community Development Block Grant (CDBG) and HOME Investment Partnership Programs for the period of July 1, 2016 to June 30, 2017 (Paula Mitchell).

CIP/DID #OB246513

EnvisionCR Element/Goal: StrengthenCR Goal 3: Adopt policies that create choices in housing types and prices throughout the City.

Background: A public hearing was held on April 12, 2016 regarding the Annual Action Plan for the Community Development Block Grant (CDBG) Program and the HOME Investment Partnership Program for the period of July 1, 2016 – June 30, 2017. Previously, on January 26, 2016, to consider input regarding community development and housing needs prior to the development of the City's Annual Action Plan for Community Development Block Grant (CDBG) and HOME Investment Partnership Program funding.

The City of Cedar Rapids is an "Entitlement Community" for the Community Development Block Grant (CDBG) and HOME Investment Partnership Programs administered by the U.S. Department of Urban Development (HUD). This means Cedar Rapids qualifies, based upon population, to receive an annual allocation of CDBG and HOME funding directly from HUD for use in the community. Funds are allocated based on a formula that considers factors such as population, degree of poverty, and age of housing stock, and are subject to the annual Congressional appropriations process. Funding for the program year July 1, 2016 – June 30, 2017 is expected to be \$986,254 for CDBG and \$267,772 for HOME. This is slightly lower than funding received in the current fiscal year, due to congressional cuts to discretionary funding and new entitlement cities qualifying for allocations.

The Annual Action Plan outlines activities to be undertaken with program budget allocations. Any activities undertaken must correspond to a specific priority need identified in the Consolidated Plan. Funding proposals are reviewed and recommendations made to City Council by the City's Grants and Programs Citizens Advisory Committee.

This effort is specifically in regard to preparation of an Annual Actual Plan for the period from July 1, 2016 to June 30, 2017. The Annual Action Plan was made available for public comment for 30 days beginning on March 19, 2016 and can be accessed on the City's web site. Following adoption, the Annual Action Plan is due to HUD by May 15, 2016.

Action/Recommendation: City staff recommends approval of the resolution.

3. The City is duly authorized, under and pursuant to the Constitution and laws of the State of Iowa, to undertake and carry out said Program through Grant Agreement(s) with the U.S. Department of Housing and Urban Development.
4. Previous findings of the City Council regarding determination of said Urban Renewal Neighborhood Projects, as slum and/or blighted areas under Chapter 403 of the Code of Iowa, remain valid and are hereby reaffirmed and made a part of this Resolution by reference herewith, including specific reference to Resolution No. 0789-04-02 which reaffirmed eligible qualification based on renewed data compilation presented within the "2001 Community Development Inventory of Existing Conditions and Related Needs - Final Report".
5. It is hereby found and determined that where acquisition and clearance is proposed the objectives of said Urban Renewal Plans, or other plans establishing urban renewal areas by virtue of economic development qualifications, cannot be achieved through rehabilitation of portions of the areas comprising the Programs.
6. It is hereby found and determined that the Urban Renewal Plans for the Project Areas conform to the general plan for the development of the locality as a whole.
7. It is hereby found and determined that the Urban Renewal Plans for the Project Areas comprising the Program will afford maximum opportunity, consistent with the sound needs of the locality as a whole, for the renewal of the area by private enterprise.
8. It is hereby found and determined that a shortage of housing of sound standards and design with decency, safety, and sanitation exists in the municipality; that the need for housing accommodations has been or will be increased as a result of the clearance of slums in other areas, including other portions of the Urban Renewal Project Areas; that the conditions of blight in the area and the shortage of decent, safe and sanitary housing cause or contribute to an increase in and spread of disease and crime, and constitute a menace to the public health, safety, morals, or welfare, and that the acquisition of areas for residential uses is an integral part of and essential to the program of municipality.
9. It is hereby found and determined that the Urban Renewal Plans for the Program Project Areas give due consideration to the provision of the adequate park and recreational areas and facilities, as may be desirable for neighborhood improvement, with special consideration for the health, safety, and welfare of children residing in the general vicinity of the sites covered by the Plans.
10. It is hereby found and determined that the program for the proper relocation of individuals and families, displaced in carrying out the Urban Renewal Plan in decent, safe, and sanitary dwellings in conformity with acceptable standards, is feasible and can be reasonable and timely effected to permit the proper execution and completion of the Plans and that such dwelling units available or to be made available to such displaced individuals and families are: at least equal in quantity to the number of displaced individuals and families; not generally less desirable in regard to public utilities and public commercial facilities than the dwellings of the displaced individuals and families in the areas comprising the Program; available at rents or prices within the financial means of the displaced individuals and families; and reasonably accessible to places of employment.

11. It is hereby found and determined that a request for the release of funds is not an action, which will significantly affect the quality of the human environment. Said decision being based on the following facts and reasons: (a) assessment of the nature, magnitude, and duration of any adverse and positive impacts; (b) consideration of alternatives to the program, commitment of resources, known views of local groups, measures which can be instituted to lessen potential adverse impacts and to enhance the environment; (c) no loss of unique environmental resources; (d) no irreversible development trends; (e) a minimum occurrence of adverse effects that cannot be avoided; and (f) no impacts on properties possessing historical, archaeological, or cultural significance. In this regard it is noted that all budgeted activities, with one exception, are found to be either exempt or categorically excluded (either subject to the regulations or not subject to the regulations).
12. The City Manager is hereby specifically authorized to consent to assume the status of a responsible federal official under the National Environmental Policy Act ("NEPA"), insofar as the provisions of NEPA apply to HUD representatives for review, decision making, and action assumed and carried out by the City as to environmental issues.
13. The City Manager is hereby specifically authorized to consent personally, in their official capacity and on behalf of the City, to accept the jurisdiction of the federal courts if an action is brought to enforce responsibilities in relation to environmental review, decision-making, and action.
14. The City Manager is hereby specifically authorized to execute an appropriate Environmental (Clearance) Certification with Request for Release of Funds (RROF).
15. As described within the City's approved and adopted written Citizens Participation Plan, for consideration of respective / relevant issues, it is reaffirmed that the City has an established process for Consolidated Plan development and amendment.
16. The City Clerk is authorized and directed to publish notice in the Cedar Rapids Gazette that the actions approved herein have been adopted (with copies maintained on file in the Department of Community Development), and an Environmental Review (Clearance) Finding has been determined with intent to Request Release of Funds (RROF). The City Clerk is further authorized to publish any other related required "Consolidated Planning" documentation including, but not limited to, a Consolidated Annual Performance Evaluation Report ("CAPER").

Description of Agenda Item: Purchases, contracts and agreements
 Resolution accepting a bid in the amount of \$1,563 from David and Rebecca Rasmussen and approving a Quit Claim Deed for the disposition of the non-conforming vacant lot located at 1317 K Street SW.
 CIP/DID #3302500004-00

EnvisionCR Element/Goal: GrowCR Goal 1: Encourage mixed-use and infill development.

Background: The City received interest to dispose of various non-conforming lots. These properties were acquired with Community Development Block Grant (CDBG) funds through the Voluntary Acquisition Program, and as per State guidance, may be disposed of as long as the properties are located outside of the Special Hazard Area (100-year flood plain). These lots are all located outside of the 100-year flood plain.

A Public Hearing was held on November 3, 2015, and Council approved the resolution to continue with the disposition of these properties to adjacent property owners by sealed bid. The properties were offered for sale by sealed bid for a period of 30 days to adjacent property owners, and a condition of each sale is that the lot must be combined with an adjacent parcel to make one tax parcel.

One acceptable bid was received for this lot on March 18, 2016 from the adjacent parcel owners, David and Rebecca Rasmussen, offering to purchase this nonconforming vacant lot to combine with their adjacent parcel. As required by CDBG, all proceeds from this sale will be returned as program income.

Action/Recommendation: The Public Works Department recommends accepting the bid and proceeding with the disposition.
